

Aluminium Die Cast Components & Rotors

SURYA DIE CAST

Manufacturers of Precision
Die Cast Components &
Motor Rotors

About Our Company

Established in 2017 with a humble beginning, Surya Die Cast has grown into a trusted name in the manufacturing of aluminium components and rotors for OEMs and Tier-2 suppliers. Based in Coimbatore – the pump city of India – we pride ourselves on being a center of excellence in precision component manufacturing. Backed by over 34 years of industry expertise from our leadership team,

Manufacturing

Equipped with advanced Pressure Die Casting and CNC machines, we ensure precision and efficiency in every component we produce.

Services

We offer end-to-end solutions including Tool & Die making, Machining, and surface finishing processes such as Anodizing, Powder Coating, and ED Coating.

**Global Supplier of
Precision
Aluminium
Components & Die
Cast Rotors**

Infrastructure

Our robust manufacturing setup includes:

- 4 High Pressure Die Casting (HPDC) Machines
- 5 CNC Machining Centres
- Trimming Press
- Centre Lathe

With a production capacity of 4 million parts annually, Surya Die Cast is well-equipped to meet high-volume demands while maintaining agility in responding to customer lead times.

Products & Services

Pressure Die Cast Components

High Quality & Complex parts Aluminium parts are produced in a most efficient and environmentally friendly manufacturing methods.

Aluminium Die Cast Rotors

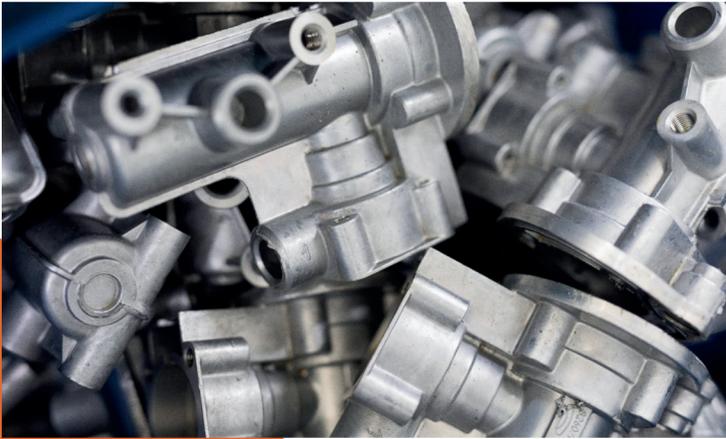

Our advanced capabilities and expertise enable us to produce a wide variety of rotor cores used in small fractional horsepower motors (FHP) to the most complex Pumps, Induction Motors & Traction Drive applications.

CNC Machined Components

SDC has inhouse capabilities with a range of CNC Machines to cater the domestic needs as well as global client's needs.
